TRANSO

®

's ocean and air freight services are based on a solid range of services:

- **Efficient export customs** clearance which will satisfy your suppliers and will comply with the appropriate regulatory requirements for each country.
- Secured pick-ups in **regular and reefer trucks** at competitive rates.
- **Selection of partners** suited to specific transport requirements.
- A **worldwide network** enabling us to consolidate your small orders in containers to keep your products competitive on the market.
- Storage solutions in regular and **temperature-controlled** warehouses.
- **Stock management** and order preparation
- Specific monitoring for **Bordeaux Grand Cru wines**
