

Security & Accreditation

Apart from our **FIATA** and **IATA** memberships, the quality of our service is recognized through our **ISO 9001 V2000** certification (AFAQ N° QUAL/1996/5992e).

As we take **security very seriously**, we transmit our own **AMS** (Automatic Manifest System) which allows us to improve our control of information and the timely loading of containers at ports of origin.

We have volunteered to participate in the **C-TPAT program**. **As a certified member**, we follow security procedures as requested by U.S. Administration.

**By using
TRANSO**

®

, you benefit from our careful selection of warehousing facilities, truckers and other partners.

Last but not least, our Management and our teams are dedicated to giving you entire satisfaction.
